

Thin Stone Veneer - Vintage Blues

Vintage Blues Veneer

PDF - 01

Product Information

- Vintage Blues Veneer is a lightweight real stone product with no added moulds, dyes or colors added that will not chip, fade or crack.
- Vintage Blues Veneer comes in rectangular, square and random dimensions with 90 degree corners available for simplified installation.
- Vintage Blues is available in select landscape pairings including *ledgestone*, *flagstone* and *build stone* for patios, steps, walkways, water features, rock walls and feature stones.
- Each pallet of thin veneer stone has no waste rock added, ensuring that each pallet consists entirely of useable rock. The result is less stone needed, which saves material costs, hauling fees, installation time, hassle and money.
